## Important information

- Once an investment switch has been processed it cannot be cancelled.
- Re-allocation of existing investments (or redirection of future contributions) to the With-Profits Fund is not allowed for members within three years of Normal Retirement Date and, if chosen, will instead be invested in the Cash Fund. Please remember that the value of the Cash Fund can fluctuate depending on the value of the underlying assets. It also has a guarantee that the price at which you can sell units in the fund – the bid value – will not fall.
- The Fund Management Charge may not, in future, be taken in the way described in the plan booklet. However, the total Fund Management Charge taken will not be greater than the corresponding figure shown for the relevant fund in our table of Fund Management Charges. Details are available on request.
- A Market Value Reduction may be applied to switches out of With-Profits. See the Key Features Document for further details.
- The value of the investments that make up the plan can go down as well as up. The value can even fall below the amount invested.
