The Prudential ISA is provided by Link Financial Investments Limited who is the ISA Plan Manager. Link Financial Investments Limited is responsible for all the regulatory and legal aspects of the ISA and the provision of all customer services.

For the Retirement Account, the unit price of the PruFund funds will also reflect the investment charges applied.

The PruFund Planet range of funds are currently only available on the Retirement Account.

The PruFund Protected Funds are not available on the Retirement Account or Prudential ISA.

\* New capital and income guarantees are currently unavailable. Customers who already have a PruFund capital or income guarantee will not see any change to their existing guarantees.

PruFund Protected Cautious (Euro) Fund*/PruFund Cautious (Euro) Fund	4.0%
PruFund Protected Cautious (US Dollar) Fund*/PruFund Cautious (US Dollar) Fund	4.9%

PruFund funds aim to grow your money while giving you a smoothed investment experience. They do this by investing in Prudential's With-Profits Fund. The PruFund funds have an established smoothing process which aims to provide you with some protection from the extreme short-term ups and downs of the markets.

As part of the smoothing process, Prudential set Expected Growth Rates (EGR); these are the annualised rates your investment would normally change in line with. The Expected Growth Rates (EGRs) reflect our view of how we think each PruFund fund will perform over the long term (up to 15 years).

Each PruFund fund has its own EGR and your investments into a PruFund will normally change on a daily basis in line with the relevant EGR. Although we take a long term view, we do review the rates every three months to allow for any changes, which may mean a change in EGR on a quarterly basis, up or down.

We publish Expected Growth Rates on [pru.co.uk/investments/investment-fund-range/prufund-range/](http://pru.co.uk/investments/investment-fund-range/prufund-range/)

The PruFund quarter dates are 25 February, 25 May, 25 August and 25 November (or the next working day if a quarter date is a weekend or a public holiday).

Although we use a long-term view of performance to set EGRs, we also have to take into account shorter term performance. On a daily basis, if the shorter term performance differs too much from our current EGR, we would have to amend the value of your fund up or down to ensure we are not returning too much or too little. We call these Unit Price Adjustments (UPAs).

We may decide to reset the smoothed price (referred to elsewhere as the unit price) of a PruFund fund to the unsmoothed price on a particular day, to protect the With-Profits Fund. This is referred to as a Unit Price Reset (UPR).

There may be occasions where we have to suspend the smoothing process for one or more PruFund Funds for a period of consecutive days to protect the With-Profits Fund. When this happens the smoothed price for the affected fund(s) is set to the unsmoothed price for each day until the smoothing process is reinstated.

For more information on EGRs, UPA's, UPR's, the PruFund smoothing process or suspension of the PruFund smoothing process, refer to the documents below which are available from [pru.co.uk](http://pru.co.uk) or from your financial adviser.

Details of the charges that apply for the range of PruFunds are available from [pru.co.uk/funds/guides](http://pru.co.uk/funds/guides) or from your financial adviser.

**The value of your investment can go down as well as up so you might not get back the amount you put in.**

For the range of PruFund funds, what you receive will depend on the value of the underlying investments, the Expected Growth Rates as set by the Prudential Directors, our charges, the smoothing process, if there is a guarantee and when you take your money out. For more details on PruFund Expected Growth Rates, speak to your Financial Adviser.
